

"Obey That Impulse"

Most men intend to buy life insurance sometime—but just delay doing it. Some wait too long. Others intend to take more—knowing that it means "spot cash" just when they can't be on hand to tend to things. It's a good plan not to wait until you can afford to take a BIG policy. If you can't take \$20,000—get \$5,000—\$2,500—or \$1,000. The cost is the same per thousand, whether the amount is big or little. Annual dividend insurance is the best, because it costs less each year you live—after you get it. Thus you get back, in annual dividends, savings which would otherwise go to the stockholders. When your policy becomes "paid up" you still draw annual dividends from it—just like a bond—as long as you live. The official records prove that the BEST results are obtained from the annual dividend policies of the Union Central Life, of Cincinnati. Make me prove it.

Miller Is Star of Brooklyn Dodgers

"Squatting" Catcher Aids Twirlers by Watching the Bases and Cutting Down Runners With His Speedy Peg.
By MONTY.

BROOKLYN, N. Y., May 26.—Brooklyn has a baseball team. Not since the days of Ned Hanlon, in the first few years of the century, has such a state of affairs existed. A baseball team in Brooklyn—who ever heard of such a thing? Yet this time it is a team, and no joke about it. You in outlying districts who have watched the standing of the clubs, knew that the Dodgers have been winning games, lots of them, but so have other teams in the past, many of them, simply through getting the breaks of the game and not because of sheer merit. But the present Brooklyn crew is not one of those lucky slip-through propositions. It is playing baseball.

For three years Bill Dahlen has heard the teams of fans calling him a joke manager and during those same three years he was unable to land any higher than a second division. His predecessors, Lumbly and Donovan, did equally as poorly following the departure of Hanlon and the old coach, Charles H. Bennett, but two out because they simply didn't "show anything." The fans howled for him to treat Dahlen likewise, but Dahlen, kidded man as he is, was wise. Dahlen showed him something in his very first disastrous year, something additional in the second and still more in the third.

His average of about one or two first class players a year were developed by Dahlen out of raw recruits, until now, in the beginning of his fourth season as head of the team, he has what appears to be by far the most promising young crew in either league. The veteran of the bunch, Nap Rucker, is still a young-man baseball speaking.

He has been with the club only five years and just now is showing if anything increased cunning. Jake Daubert, the most reliable first baseman in the game, has three-fourths of his career ahead of him, and the rest of the array is almost all in the debut stage.

The principal factor that has brought the jump of the Dodgers from lower to upper half of the league is Otto Miller. Let him who will arise and deny it—Otto Miller, though a strapping, is the best throwing catcher in the game. Get that, the best-throwing catcher and even up in every other feature of playing his position with any other man in the game, barring not Jimmy Archer, not Roger Bresnahan, not Al Simmons, not anybody. Several will hit the ball harder than Miller and several will run bases better, but as a catcher pure and simple, he is the big reason of them all, and when the team takes its first swing around the western circuit, the team-Al Simmons, will be treated to an exhibition of catching unsurpassed by Johnny Kling in his prime.

It is on his heels. Jimmy Archer gets credit for being the original "squatting" catcher, in

THE HUMAN TARGETS

Little Stories Told About Baseball

By W. A. Phelon

DURING the last 25 years, five men have stood out pre-eminent over all others when it came to the painful hour of getting hit by pitched balls—five athletes, besides whose record of biffs received all the thousands who have come and gone are merely legends. These five were Curly Welch, Hugh Jennings, Frank Chance, Steve Evans, and George Winters. (Winters, please take note—not the pitcher named George Winters who was so long a star in the American league). Of these five, two were marveled at getting hit without retreating a foot. One was a physiological freak, wholly immune to pain, and two others could not dodge a ball. It is no joke to get soaked by a big league pitcher driving in the ball like a rock, with a steam-powered arm. Walter Johnson, who now throws the fastest ball in the league, was so fast that he would hit and kill or cripple somebody, and inside who was even swifter, would not be able to get the ball. The game had been of a sensitive or easily grieved disposition. When most pitchers hit a man, the man rubs himself, snarls, and limps to first. When Rube hit a man, that man went to the hospital and stayed there a week or two. Besides, Mathewson never hits anyone, and has gone an entire season without even grazing a batter. He is a perfect pitcher, can bend or govern the fast ones as Mathewson can do. The five human targets, though, were interesting specimens of the game. While he would take a smash on the head or rib, or a bullet in the arm, most of his gifts by shoving forward with the arms and letting the balls glance over his head, he was a wonderful man. Welch's skill in this respect that he could do it two or three times a day, and finally they named a rule nullifying the free pass if the man was hit on the arm below the elbow. Welch died the following

Arizona Arranges Football Schedule
Amateur Athletic Association Elects Students Managers for Various Teams of University of Arizona.

Tucson, Ariz., May 26.—Because of a possibility of a rift between the athletic coach and the various student managers, it has been decided by the University Amateur Athletic association of the University of Arizona to appoint the coach corresponding manager with power to arrange all schedules and make all financial arrangements. This has previously been done by the student managers, with resulting charges that in many instances poor bargains were made with outside teams.

The association has elected the following student managers for the coming year: Baseball, Collins Jones; basketball, N. C. Hayhurst; track, F. Lutz; tennis, J. Brooks; Glens; football, J. Halber; J. Halber. The student managers will serve under the coach and will have charge of all purchases of supplies, etc.

Because of the expense attending the trip, it is likely that the university football team will not clash with the University of New Mexico next year. Coach Quinley of the university, is corresponding with other colleges for a Thanksgiving game, and it will likely result in a game with the University of New Mexico.

The schedule for fall football for the University of Arizona, so far as it has been completed, follows:
Oct. 4—Home. Sophomores vs. Varsity.
Oct. 11—Home. Freshmen vs. Varsity.
Oct. 18—Home. Freshmen vs. Sophomores.

Oct. 25—Home. Tucson High school vs. Varsity (tryout game).
Nov. 1—Phoenix. Varsity vs. Phoenix Indian school.
Nov. 8—Home. Occidental (Calif.) college vs. Varsity.
Nov. 15—Las Cruces, N. M. Varsity vs. A. & M. college.
Nov. 22—Open.
Nov. 27—Pomona college vs. Varsity.

It is predicted on the campus that there will be 50 men out for the varsity squad, 15 to 20 for the freshmen and as many for the sophomores.

ARENA NEAR CALGARY DESTROYED BY FIRE
Doctors Determine That Dislocation of the Neck Caused the Death of McCarty—Police Faces Charge.

Calgary, Alberta, Canada, May 25.—Tommy Burns' prize fight arena, in which Luther McCarty was killed Saturday afternoon in the fight with Polkey, was burned to the ground last night.

A dislocated neck caused the death of Luther McCarty, according to information given out following an autopsy conducted by Dr. Mosher at the request of county coroner Costello.

It was stated by the physicians that death undoubtedly had been caused by the dislocated neck and that the blow was found to be sound. A clot of blood on the brain aided in convincing the physicians that death was due to the blow near the heart. Physicians are of the opinion that the dislocation of the neck was not sustained in the fall which followed. He fell slowly and did not strike his head.

Warrants have been issued for the arrest of Tommy Burns, Wm. McCarty, McCarty's manager, referee Ed Smith and several trainers and attendants.

This development followed an order from the attorney general at Edmonton, that principals in the arrangement for the fight be arrested, and the northwest mounted police were instructed to execute the order immediately. It is understood that the men arrested will be charged with complicity in manslaughter.

UNIVERSITY OF MISSOURI WINS TENNIS CHAMPIONSHIP
Lawrence, Kan., May 24.—The University of Missouri won the Missouri valley tennis championship in doubles here today. Wm. and Ed. Schwartz defeating H. Richardson and E. Richardson. Other schools contesting were Drake, Iowa State agricultural college and Washington university. Missouri also won the single championship.

JIM PAUL SHOOTS HIGH

SCORE IN RIFLE CLUB EVENTS
Jim Paul secured the best score in both the Orr cup and Thede medal events of the El Paso Rifle club Sunday morning. A strong wind, blowing from the west, did not interfere with the scoring. The scores:

Jim Paul 75
George Corning 74
George Rutledge 73
W. L. Pringle 67
Phil Baca 61
W. A. Johnston 59
Thede medal, rapid fire five shots, 20 seconds:

Jim Paul 34
George Corning 34
George Rutledge 33
W. L. Pringle 32
Phil Baca 31
W. A. Johnston 30

CALIFORNIA ATHLETES WILL COMPETE AT HARVARD STADIUM
Cambridge, Mass., May 25.—The track and field meet to be held at the Harvard stadium next Friday and Saturday is expected to prove the most comprehensive test ever held of the relative abilities of the college athletes of the country. It will be the 25th annual championship meeting of the Inter-Collegiate association of Amateur Athletes of America.

For the first time in the association's existence, a full team of representatives from the University of California will be present and the meet is expected to develop the highest record of inter-collegiate competition in years. At least six meet records are considered to be endangered, the half mile, mile, two mile, eight hurdles, high jump and hammer throw.
